FOR IMMEDIATE RELEASE

Solium Capital Inc. is proud to announce the release of Shareworks™ 4.0, the latest and most advanced version of its proprietary application.

Calgary, Alberta, (October 2009) - Solium Capital Inc. (TSX: SUM) is pleased to announce the launch of Shareworks version 4.0, one of the most anticipated and exciting software releases from Solium Capital to date. The release includes new features for Stock Option and Award plan participants and administrators, including:

- A complete redesign of the online exercise process, introducing the industries most user friendly and comprehensive online exercise functionality
- Increased functionality now supporting over 20 different exercise types, including net-withheld stock settled SAR's
- Real time display and updates of the results of a plan participant's exercise (including proceeds, fees and taxes)
- Complete customization abilities for issuers for the naming, description and availability of exercise capabilities by plan, award type, and employee type – increasing your ability to run global plans and fulfill regulatory requirements.
- Multiple grant exercises from a single transaction, configurable based on how the issuer expects their plan to operate

Solium is one of the first companies in North America to offer this capability to users with true real-time integration with several executing brokers. This release continues to reiterate the advanced level of stock plan administration technology Solium Capital is able to offer.

“Shareworks 4.0 marks a significant milestone in the continuing evolution of the capabilities of Solium's software. Being solely focused on being the preeminent stock plan administrator that offer true real-time administration and execution capabilities gives Solium the advantage of being able to concentrate all R&D efforts towards leading the industry in employee incentive plan software. SW4.0 is a testament to our success in being able to do so.” – stated Marcos Lopez, EVP, Corporate Strategy and Business Development.
