FOR IMMEDIATE RELEASE

Solium Transcensive Releases Version 13.0 of the Express Equity™ Suite

Shelton, CT, April 14, 2011 – Solium Capital Inc., the market leader of equity plan solutions, announced today that its subsidiary Solium Transcensive has released the Express Equity Suite Version 13, which includes the Express Options™ software solution.

Express Options Version 13 contains the first equity compensation software that supports Mobility taxation as a standard feature set. Express Options Mobility Taxation functionality includes the ability to:

- Track mobile employees during the life of a grant to determine proper taxation upon exercise.
- Specify participants as ‘mobile’ employees.
- Create assignment records (containing effective dates, home location data, work location data, tax allocations applicable to the assignment, including user defined fields).
- Define tax codes on a grant level for mobile grants.
- Apply advanced taxation logic to determine the source of tax code allocations (i.e. Grant, assignment or legacy).
- Mobility Import File Layouts have been created in a character separated flexible file format, which allows users to define the field list and order.

Other features in Version 13 include:

- Ability to accelerate shares to cover the tax obligation for retirement eligible grants.
- Upgrade of the integrated reporting system to Crystal Reports Version XI.
- Support for Windows Vista Business and Windows 7 Professional operating systems.

“Express Equity Suite Version 13 represents a significant advance in this market leading technology platform and will provide our customers with the optimal solution to continue to meet their equity administration and compliance needs.” Joe Potenza, President Solium Transcensive

Update on Integration

In the five months since Solium acquired Transcensive we are pleased to report that the integration and transition has been proceeding exceptionally well, with a strong commitment by both clients and staff to the Transcensive business and its service model. Solium continues to reinforce its market leading position with the most comprehensive suite of products in the market. Shareworks and the Express Equity Suite product offerings service more than 1,600 corporate customers. Solium offers a broad set of service models including full-service administration, self-administration, and 3rd party brokerage integration.

“We are very pleased with the progress our firms have made since the acquisition and our continued commitment and investment to bringing the best and most comprehensive product offering to our customers and partners. Our teams have integrated exceptionally well together, and Solium’s customers benefit from having one of the largest dedicated equity administration teams in the market.” Marcos Lopez, Managing Director.
